## NOTES on OPTIONS

All entrants cars start with 100 points and points are deducted as the build extract supplied with judging sheet. If no build extract supplied with sheet it is a 100 point deduction

For example:

- Wrong engine -20 points
- Delete stripes but has stripes is -10 points
- Vinyl roof, sunroof, air conditioning, rear spoiler, bonnet black out, mirrors, aerial are all 20 point deduction.

All the rest are a 10 point deduction

Start with 100 points    deductions =

Total left after deductions =

If options are dealer fitted and have supporting documentation no points will be deducted.

Original parts will be judged out of 10 and non original parts will be judged out of 8. This means if you have original door trims and they are on average a 9 out of 10 you will get 9. If you have repo door trims that are brand new, the most you could get is 8. The current quality of repo door trim are at most a 6

During Scrutineering, if the vehicle is a previous Gold or Silver Certificate winner, noted on the sheet, and it has not changed much it only needs to have a quick look to determine if it needs to be judged. Remember all trophy winning cars are of Gold standard.

All modern era cars need to have the kilometres noted. The owner will have to turn the ignition on for this purpose.

Kilometres =
